

CREATIVE PORTFOLIO

Digital Ultras– Innovating Digital Age

At **Digital Ultras**, we are passionate about navigating the digital landscape with creativity and innovation. Our mission is to sculpt brands into unforgettable entities through strategic communication, evolving marketing strategies, and experiential design.

OUR APPROACH

We believe in a holistic approach to digital marketing. By combining cutting-edge design, strategic communication, and data-driven insights, we craft campaigns that resonate with your audience and drive meaningful engagement.

BRAND

#identity #design #value
#marketing #advertising

BRANDING SOLUTIONS

Crafting a strong brand identity is at the core of what we do. Our branding solutions encompass logo design, brand guidelines, and a cohesive visual language that sets your brand apart.

Instagram: @drpriyankadietdoc

DR. PRIYANKA'S DIET DOC

SKELETAL MUSCLE MASS

Measures the total muscle responsible for movement, strength, and metabolic activity.

Lower muscle mass is associated with reduced metabolic rate and functional decline.

38.6 kg

SKELETAL MUSCLE MASS

HEALTHY

WHY IT MATTERS

Essential for strength, mobility & physical performance

Supports a higher metabolic rate

Helps maintain independence and quality of life

IDEAL RANGE (women)

20% - 40% of body weight

20% - 30% of body weight

MUSCLE & METABOLISM

Higher muscle mass leads to higher metabolic rate

Higher muscle mass leads to better health outcomes

Dr. Priyanka's Diet Doc | dietdoc.in

DR. PRIYANKA'S DIET DOC

BMI (BODY MASS INDEX)

A population-level screening tool based on height and weight.

It does not differentiate between fat mass and lean mass, making it less precise for individuals.

HOW BMI IS CALCULATED

$BMI = \frac{Weight (kg)}{Height (m)^2}$

Weight (kg) 75 kg

Height (m) 175 cm

BMI 24.5

PERSON A: Athletic

Weight: 75 kg

Height: 175 cm

BMI: 24.5

PERSON B: Overweight

Weight: 75 kg

Height: 175 cm

BMI: 24.5

BODY COMPOSITION

Body Fat: 12%

Muscle Mass: High

BODY COMPOSITION

Body Fat: 30%

Muscle Mass: Low

WHY BMI HAS LIMITATIONS

Does not distinguish between muscle and fat

Athletes may have high BMI due to more muscle

Does not account for fat distribution or overall health risks

BMI IS A GOOD STARTING POINT

but should be interpreted alongside other body composition metrics for a complete picture of health

Dr. Priyanka's Diet Doc | dietdoc.in

DR. PRIYANKA'S DIET DOC

BASAL METABOLIC RATE (BMR)

Measures the energy expenditure required to maintain vital body functions at rest.

It forms the foundation for calorie planning in weight management programs.

TYPICAL BMR RANGE

Men: 1,600 - 2,200 kcal

Women: 1,300 - 1,800 kcal

HOW BMR WORKS

Not at rest (sleeping, resting)

Body at rest (sleeping, resting)

Calories are burned every minute

Energy from your body burning

WHY IT MATTERS

Understanding your BMR helps create a personalized calorie target that supports fat loss, muscle gain, and long-term health.

BMR IS NOT OPTIONAL

It's your body's baseline. Know it. Respect it. Plan with it.

Dr. Priyanka's Diet Doc | dietdoc.in

DR. PRIYANKA'S DIET DOC

7 BODY COMPOSITION NUMBERS EVERYONE SHOULD KNOW

Body weight alone does not define health. True health is understood through body composition data.

22.7% BODY FAT

38.6 kg SKELETAL MUSCLE MASS

7 VISCERAL FAT

1486 kcal BMR

54.2% WATER

16.7% PROTEIN

2.9 kg BONE MINERAL

Dr. Priyanka's Diet Doc | dietdoc.in

DR. PRIYANKA'S DIET DOC

VISCERAL FAT LEVEL

Fat stored around internal organs such as the liver and intestines.

Elevated visceral fat is strongly linked to insulin resistance, type 2 diabetes, and cardiovascular risk.

VISCERAL FAT LEVEL

7.5 / 20

HEALTH RISK PATHWAY

EXCESS CALORIES & INACTIVITY

Calorie surplus and sedentary lifestyle lead to fat accumulation

INCREASED VISCERAL FAT

Fat accumulates around internal organs, particularly the liver

INSULIN RESISTANCE

Impaired fat release from adipose tissue that traps health signals

VISCEAL CAROTENOID RISK

Leads to high blood sugar, high blood pressure, poor cholesterol, and increased risk of heart disease

REDUCE VISCERAL FAT

Regular exercise | Balanced diet

Adequate sleep | Stress management

Small changes today, stronger health tomorrow

Dr. Priyanka's Diet Doc | dietdoc.in

DR. PRIYANKA'S DIET DOC

BODY WATER % & BONE MINERAL CONTENT

Body water reflects hydration status and balance of cellular function.

Low bone mineral content provides an estimate of skeletal strength and long-term structural health.

58.7% BODY WATER

2.95 kg BONE MINERAL

WHY IT MATTERS

Essential for temperature regulation and nutrient transport

Supports cellular function, digestion, and detoxification

Low bone mineral content is linked to osteoporosis and fractures

WHY IT MATTERS

Strong bones reduce risk of fractures and support mobility

Essential for long-term skeletal health and overall quality of life

Dr. Priyanka's Diet Doc | dietdoc.in

DR. PRIYANKA'S DIET DOC

BODY FAT PERCENTAGE

Represents the proportion of fat mass in the body.

A more accurate indicator of health risk than body weight alone, especially for metabolic diseases.

22.7% BODY FAT

72% LEAN MASS

28% FAT MASS

YOUR BODY FAT %

22.7%

HEALTHY RANGE: 10% - 34%

WHY IT MATTERS

Helps assess metabolic health

Better predictor of disease risk

Guides fat loss & muscle gain strategies

Tracks progress, not just weight

Dr. Priyanka's Diet Doc | dietdoc.in

DR. PRIYANKA'S DIET DOC

HEALTH IS MORE THAN WEIGHT

Health is not just weight on a scale.

It is a composition of fat, muscle, water, and bone.

THE SECRET
BEHIND
**AGNI KAWACH'S
INSTANT REACTION**

Fire doesn't give you time to react.
That's why your safety should react first.

The difference comes from:
It activates the moment it touches fire
It responds within 3-5 seconds
It spreads fire-extinguishing powder instantly
It covers fire in a 360° direction
It alerts with a loud sound

Two fire safety tools may look similar.
But only one reacts before the situation gets out of control.

Instant reaction can prevent a major disaster.

Managed IT

Measurable Business Impacts

75% Downtime Reduction:

Fewer outages. More uptime.

40% Cost Savings:

Cut IT costs, boost ROI.

95% Security Enhancement:

Stronger protection, fewer risks.

90% Productivity Boost:

Optimized systems = happier teams.

The impact is clear – Managed IT transforms your Dubai business performance.

IT

SAVE MONEY ON IT RESOURCES

4 SMART STRATEGIES

1. OUTSOURCE VS. HIRE

Outsourcing IT support costs 60% less than hiring full-time staff while providing expert-level service.

2. CLOUD OVER HARDWARE

Cloud services eliminate expensive hardware purchases and reduce maintenance overhead significantly.

3. PREVENTIVE MAINTENANCE

Regular system maintenance prevents major failures that could cost thousands in emergency repairs.

4. STANDARDIZE DEVICES

Using consistent hardware reduces support complexity and streamlines troubleshooting processes.

Hiring a full in-house IT team isn't always cost-effective for Dubai SMEs. These proven strategies help you cut costs while maintaining high performance and reliability.

Basic Skincare Routine Tips

Here are simple and basic tips that you can add to your skincare routine to achieve a clean and healthy skin:

Gentle Cleansing

Use a mild, oil-free cleanser to wash away impurities.

Balanced Hydration

Choose a lightweight and hydrating moisturizer and toner.

Weekly Exfoliation

Keep pores clear with a gentle exfoliant.

Sun Protection

Protect skin from UV by applying and reapplying sunscreen.

Find more beauty tips on our website and get to understand your skin needs and problems

#1 BEST REMOVALISTS MELBOURNE

Providing High-Quality Professional House Moving Services, Furniture Moving, And Office Removal For Over A Decade. Hire Cheap Removalists Near You

Our Mission and Vision

**MISSION**

To help moving companies grow and scale their business with impeccable customer support and ever-changing technology

**VISION**

To be the one and only tool needed to start, grow and run a moving company

Look what our cutomers have to say about us.

Melbourne central movers is a great moving company. They are reliable, quick and easy to work with. I highly recommend them for anyone needing their services

★★★★★

Betty Kenneth

After checking out their services, I found them to be cheap, and reliable and they have the best customer service. I'd definitely recommend Melbourne central movers for the house removal services.

★★★★★

Holden Guerrero

Melbourne central movers provided excellent service from start to finish. The team was very professional, and they took great care in handling my belongings. I would definitely use them again in the future.

★★★★★
